

Technical Data Specification Sheet

Moisture control pack 62%

Product	Moisture control pack 62% (3 g)
Product Code	3MCTY1003
Raw Material	Silicon dioxide,sodium chloride, calcium chloride,water
Packaging Material	Tyvek Comply with FDA 21cfr 177.1520 regulation of contacting with food directly

Technical Standard

Items	Standard
Appearance	The surface of desiccant bag should not have damage or obvious discoloration, with the flat paper. The printing is clear without stains.
Humidity control capacity (20℃)	RH62% ±5%
Balance time	≤12h
Dropping resistance	In the case of free falling of 15 times at a height of 1.2m or more, the desiccant bag shall not be broken or have the damage of enabling the adsorbent to leak.
*lead	≤5mg/kg
Total bacterial count (cfu / bag)	≤10 ³
Mould and yeast count (cfu / bag)	≤10 ²
Escherichia coli	Not detectable per bag

Sachet	Gross Weight:	3.1~3.6g
Dimension	Width:	45±2mm
	Length:	50±2mm

Sealing Method 3 Sides Seal

Printing Moiskon

STD Packaging — 750pcs/zip bag, 3000pcs/4 zip bags/carton
 Carton Size: 370×275×250 mm, 48ctns/pallet
 —Carton label contains the following:
